I.6 SPECIAL SECURITY REQUIREMENT - CONTRACTOR PRE-SCREENING (SEP 2011)

1. Contractors requiring recurring access to Government facilities or access to sensitive but unclassified information and/or logical access to Information Technology (IT) resources shall verify minimal fitness requirements for all persons/candidates designated for employment under any Department of Security (DHS) contract by pre-screening the person /candidate prior to submitting the name for consideration to work on the contract. Pre-screening the candidate ensures that minimum fitness requirements are considered and mitigates the burden of DHS having to conduct background investigations on objectionable candidates. The Contractor shall submit only those candidates that have not had a felony conviction within the past 36 months or illegal drug use within the past 12 months from the date of submission of their name as a candidate to perform work under this contract. Contractors are required to flow this requirement down to subcontractors. Pre-screening involves contractors and subcontractors reviewing:
 - a. Felony convictions within the past 36 months. An acceptable means of obtaining information on felony convictions is from public records, free of charge, or from the National Crime Information Center (NCIC).
 - b. Illegal drug use within the past 12 months. An acceptable means of obtaining information related to drug use is through employee self certification, by public records check; or if the contractor or subcontractor already has drug testing in place. There is no requirement for contractors and/or subcontractors to initiate a drug testing program if they do not have one already in place.
 - c. Misconduct such as criminal activity on the job relating to fraud or theft within the past 12 months. An acceptable means of obtaining information related to misconduct is through employee self certification, by public records check, or other reference checks conducted in the normal course of business.
2. Pre-screening shall be conducted within 15 business days after contract award. This requirement shall be placed in all subcontracts if the subcontractor requires routine physical access, access to sensitive but unclassified information, and/or logical access to IT resources. Failure to comply with the pre-screening requirement will result in the Contracting Officer taking the appropriate remedy.

Definition: *Logical Access* means providing an authorized user the ability to access one or more computer system resources such as a workstation, network, application, or database through automated tools. A logical access control system (LACS) requires validation of an individual identity through some mechanism such as a personal identification number (PIN), card, username and password, biometric, or other token. The system has the capability to assign different access privileges to different persons depending on their roles and responsibilities in an organization.
